**RECONSTRUCTION TO START ON C.T.H. “T”
Calhoun Creek Structure and Roadway Approaches in the City of New Berlin**

WAUKESHA – Waukesha County plans to reconstruct the County Trunk Highway (C.T.H.) “T” (Beloit Rd.) culvert over Calhoun Creek in the City of New Berlin from Sept. 21 – Nov. 14.

The purpose of the project is to replace an existing concrete culvert structure and to improve roadway geometry at the site. It will include the reconstruction of 1,500 ft. of C.T.H. “T” that intersects with Calhoun Rd. and the culvert 800 ft. east of it.

C.T.H. “T” will be closed to traffic east of Calhoun Rd. for the duration of the project. Traffic will be detoured to C.T.H. “ES” (National Ave.) and C.T.H. “O” (Moorland Rd.). Calhoun Rd., as well as C.T.H. “T” west of Calhoun Rd., will remain open to traffic during construction operations.

For further information, please contact Kevin Yanny, Project Manager with the Waukesha County Department of Public Works at 262-548-7740, or Mr. Paul Watry, Project Engineer with Bloom Consultants at 414-788-8205.
